January 17, 2018

Virginia Pharmacists Association  
Attn: Becky Snead  
2530 Professional Road  
Richmond VA 23235

Dear Becky Snead:

The Board has received the additions to your adult immunization program that will serve as a model protocol for use by pharmacies in Virginia. Your model protocol has been updated to include Herpes Zoster (Shingrix).

Pursuant to §54.1-2400 of the Code of Virginia and regulation 18 VAC 90-21-50, the Board of Nursing approves the protocol for your adult vaccination program. Your proposal is both comprehensive and well-documented to insure a safe immunization program for the adult citizens of the Commonwealth.

You are not required to submit a new protocol each year, unless substantial changes are proposed. Major revisions must be submitted to the Board for further review and approval prior to actual implementation.

If further additional information or clarification is needed, please feel free to contact the Board of Nursing for assistance.

Sincerely,

Brenda Krohn RN, MS  
Deputy Executive Director
